

Joanna Fearnley

Head of Strategic Projects

Joanna started working for AFA's sister charity, Arrhythmia Alliance, in September 2009. In the last few months, Joanna has become more involved with AFA's projects, using her experience in this field to provide support to the charity. Some of Joanna's involvement has been on strategic elements of AFA's work, including the Know Your Pulse Campaign, annual Heart Rhythm Week, AFA communications, patient advocacy and parliamentary engagement.

Joanna is looking forward to growing her role within the organisation and supporting AFA on its growth in the UK and internationally.
